

CAPITAL MARKETS DAY

16-17 March 2016

Boliden is pleased to invite you to our Capital Markets Day on Wednesday 16 March 2016 at IVAs Konferenscenter, Grev Turegatan 16, Stockholm

We will provide an update on our strategy to continue delivering stable performance, with an in-depth review of Business Area Mines and Business Area Smelters.

Immediately after the Capital Markets Day you are invited to travel to Bergen, Norway, for the site visit to Boliden's Odda smelter on Thursday 17 March. This site visit will include a progress update on Odda's expansion, as well as a guided tour of the zinc smelter.

To register for the CMD only, please [click here](#).

To register for the CMD and Odda smelter site visit, please [click here](#).

Wednesday 16 March 2016

Thursday 17 March 2016

Site visit to Odda smelter

If you have any questions, please contact:

Sophie Arnius, Director Investor Relations, +46 8 610 15 23, sophie.arnius@boliden.com

Julie Ryan, SPC-IR, +44 7900 571996, julie.ryan@spcnetwork.eu

IMPORTANT:

If you would like to attend the site visit you need to book your own flights to Bergen.

Boliden will reserve the hotel in Bergen, but participants will be responsible for covering the cost on check out (NOK 1620).

Availability on flights and hotel accommodation is limited – we advise that you make reservations by 15 January.

Flights on 16 March 2016 to be booked by participants directly:

16.50 SAS flight SK499 Stockholm Arlanda to Oslo

18.45 SAS flight SK283 Oslo to Bergen

Suggested return flights on 17 March 2016 to be booked by participants directly:

19.05 Norwegian flight DY840 Bergen to Stockholm Arlanda

19.00 British Airways flight BA759 Bergen to London Heathrow

19.10 Norwegian flight DY1318 Bergen to London Gatwick

Background on the expansion plans at Odda:

Boliden has taken the decision to increase capacity at its Odda zinc smelter in Norway from 170,000 to 200,000 tonnes of zinc per annum. The smelter, which is expected to achieve this new capacity level in 2H 2017, will incur a total investment of NOK 350 million.
